

SpeakingWell's commitment is to help you develop greater *confidence* and *competence* in your business and personal communications.

You've heard foreign actors or politicians who are able to speak convincingly without a discernible accent.

It has nothing to do with talent. They hire a great voice, accent or dialect coach to get it perfect.  
**NOW YOU CAN TOO!**

Participants come from all walks of life: accountants, actors, pilots, attorneys, teachers, engineers, programmers, physicians, students, priests, secretaries, gas station attendants . . .

**Who benefits from speaking well?**

**YOU . . .**

and everyone you speak with!

**Gain the vocal advantage to inspire action that gets results!**

**Communicate. Do It Well.**

SpeakingWell offers these additional programs nationwide:

Presentation  
Conversation  
Networking  
Team Building  
Risk Management  
Business Writing

**We offer Group Training & Individual Coaching to build skills for greater effectiveness and success.**

**CHANGE**  
**“What did you say?”**  
**TO**  
**“Tell me more!”**

**Compton Certified Foreign Accent Reduction**

**Voice & Articulation**

**SPEAKING WELL**  
*The Communication Skills Company*

Can our programs  
*make a difference?*

**... YES!**

How can Compton Foreign  
Accent Improvement  
*change your life?*

- You will communicate more efficiently, without having to repeat yourself
- You will open opportunities for advancement in your career more rapidly
- You will speak with confidence that people are paying more attention to your words than your accent

How can the SpeakingWell  
Voice & Articulation  
Program *benefit you?*

- You will learn to use the full range of your voice to inform, persuade and negotiate
- You will gain confidence and credibility in any type of speaking situation
- You will increase your productivity and improve your effectiveness at work and in the community

**Margie Stogsdill, President of SpeakingWell** is a Compton Certified Accent Reduction Instructor, with a degree in Speech Therapy.

She will provide the analysis, training, coaching and support you need to improve your spoken communications.

**Communicate. Do It Well.**

Whether you speak with a pronounced and noticeable accent, or even if you have NO accent, SpeakingWell will dramatically improve your day-to-day spoken communications...

Here's how the accent reduction & voice programs work:

**The Compton Foreign Accent Reduction Program, which can help you reduce your accent by at least 50%, consists of three stages:**

**Learning** to accurately hear the particular sounds of English that cause you to be misunderstood.

**Correcting** your accented sounds by hearing and reproducing the sounds, phrasing and intonation of American English words and sentences.

**Mastering** your new speaking skills through daily practice to reach your goal of speaking well.

Most people accomplish the first two stages in a relatively short time. The most time is spent mastering your skill.

**The SpeakingWell Voice & Articulation Program is more intensive, with:**

**Focus** on realistic, practical speaking techniques you can apply on the job, and in your personal life

**Evaluation and analysis** of your speech and vocal awareness

**Customized exercises** to focus on YOUR particular voice issues

**Step-by-step procedures** to follow—rather than theories, principles & concepts

**High-content, high-involvement, high-energy coaching sessions**

At the end of the program, a final recording of your voice will show the result of your effort!  
Both programs are available in small group (limit 5) or individual sessions.

**Our Compton Accent Reduction and SpeakingWell Voice programs are available in the Atlanta Metro area only.**
